Hi Jenny – I will probably be available at that time and would like to listen in on the discussion. Is there a conf line #?

**Subject:** FYI: talking with Ray Jaindl on Tuesday AM

Hi Karen (cc: to Dave, Jayne, Linda, and Alan),

I just wanted again to keep you in the loop about the Oregon CZARA pesticides conversations I'm having. (Linda, Karen is with ODEQ and coordinated the State's response from all state agencies to EPA on CZARA.) Though we'll be talking Wednesday, I just got a call from Ray Jaindl after I'd left a msg for Mike Odenthal of his staff re: how ODF and ODA work together on pesticide application violations. A forest steward at ODF had recommended that I talk with Mike.

Anyway, just an FYI that I'm talking with both of them Tuesday at 9AM. Since Ray's the director of natural resources at ODA, I just wanted to let you know since it got elevated. I'll be talking with them about how ODA follows up on FIFRA violations identified by ODF and also how ODA looks at notifications to ODF on herbicide application on forested areas. Also, I'm interested in general about other ways the two agencies work together on pesticides. If you want to sit in, feel free to leave a message on my voicemail at work 206-553-6328, or you're always welcome to call my cell Non-Responsive though I'll be out this pm.

Thanks, Karen. - Jenny
